

Wireless Connect Module WCM-2

Mini hotspot for wireless printing

The wireless printing tool made easy and intuitive.

WCM-2 enables wireless printing and streamlines printing for photographers to print quickly. Print photos wirelessly from **macOS, iOS, Windows®, and Android®** devices to DNP printers, connected via Wi-Fi for instant premium printing quality.

The mini module has an integrated hotspot, creating the perfect photo accessory for direct printing for professional photographers, at events, on-location or in the studio as well as photo booths. Configuration and set up are intuitive, **hassle free and accessible** through WCM-2 configuration webpage, from a mobile device or computer connected to WCM-2 wifi. Once completed simply start printing.

WCM-2 takes instant printing to the next level!

-  **Apple Airprint® & Android® compatible**
-  **Easy configuration**
-  **Fast workflow**
-  **Supports all DNP Printers**
-  **Compact Size**
-  **Wifi Hotspot**

Wireless Connect Module - WCM-2

WCM-2 is a hotspot

- ▶ Built-in wireless "hotspot" network: The WCM-2 generates a Wi-Fi hotspot that enables wireless printing to any DNP printer from connected devices via the WCM-2 network.
- ▶ Connect WCM-2 to Wi-Fi and share as a Wi-Fi hotspot, no alternative network service necessary. Users can access internet while printing; Ideal for sharing on social media!

Compatible devices

Print wirelessly from the following devices:

- ▶ PC Windows or Mac
- ▶ Apple® devices with Airprint®
- ▶ Android® 9 or later
- ▶ Android® 8.1 or earlier, requires a 3rd party printing app (Let's Print Droid or Mopria Print)
- ▶ Connect up to 10* different devices simultaneously. (*for optimal use, DNP recommends 5 different devices simultaneously)

Fast and easy configuration

In 3 easy steps, configure the WCM-2! Simply plug-in the WCM-2 and its Wi-Fi network is visible, connect your device to the WCM-2 Wi-Fi, and access the WCM-2's admin page. Configure at will:

- ▶ Display of the available printers
- ▶ Selection of the available print sizes
- ▶ Selection of print finishing, etc.

WCM-2 and QW410 make the pair

WCM-2 is so tiny and light that it fits everywhere for every occasion. Connect the QW410, DNP's smallest Dye-Sublimation printer with a specific USB power cable (included, and exclusively for QW410), the ideal set for event photography, compact and easy to manipulate. Scaled down to the minimum with assured professional quality prints, together they create a compact proficient wireless printing bundle.

And to complete the set, QW410 has a custom transport bag, everything fits inside and ready to go!

Connect to all DNP Printers

- ▶ QW410
- ▶ DS620
- ▶ DS820
- ▶ RX1 HS / RX1
- ▶ DS40
- ▶ DS80

Connect up to 2 printers at once

Print from 2 DNP printers simultaneously

- ▶ Diversified offer with 2 different print sizes 20x30cm + 10x15cm
- ▶ High speed output with simultaneous print sizes 10x15cm + 10x15cm

Benefit from a modern workflow

- ▶ Generate revenue with onsite printing
- ▶ Ideal for event environments

Specifications

Product code	369909
Compatible Printers	QW410, DS620, DS820, RX1HS/RX1, DS40, DS80
	Windows/Mac (Wi-Fi or RJ45 cable)
	Android® 9 or later
Compatible devices	Android® 8.1 or earlier, through 3rd Party Applications usage like Let's Print Droid & Mopria Print
	iOS (APPLE Airprint®)
USB ports	2 USB ports
Dimensions (WDH)	50 mm x 38 mm x 55 mm
Certifications	CE / UKCA
WiFi hotspot	802.11b/g/n standards
Kit Contents	WCM-2 module with WiFi adapter, 110V-240V power adapter (micro USB), USB printer cable, USB power cable (for QW410 printer only), Quick Start Guide
